Southern Nursing Research Society  
Call for General Symposia Research Related Issue Abstracts is Coming Soon  
for the SNRS 29th Annual Conference  
"Conducting Research in Difficult Times: Come Revitalize Your Research Spirit"  
February 25 - 28, 2015  
Saddlebrook Resort  
Tampa, FL

Dear Senior Scientists, Mid-Career Scientists, Researchers in Clinical settings and Members from the RIGs,

SNRS has added a new abstract category for the 2015 Annual Conference!

The general symposium category of research-related issues are individual abstracts submitted to highlight issues in research. **Examples include:** research career trajectories, methodological challenges, senior scientist experiences and advice, theory, research in non-academic settings, and translational science. Submissions are welcomed from senior scientists, mid-career scientists, researchers in clinical settings and members from Research Interest Groups. **Completed research work is not required for this submission.** An abstract may have multiple authors, but the conference presentation must be made by a single author (presenting author must be identified in the abstract submission). Typically, presenters have 10 minutes for the presentation and 5 minutes for Q & A. Please [click here](#) to view the rating/review criteria.

Please watch your e-mail for the Call for Abstracts scheduled to open on September 9th.

SNRS membership is NOT required at the time of abstract submission. However, SNRS membership is **REQUIRED** at the time of presentation, if you are selected.

ENRS, MNRS, and WIN members may also submit abstracts documenting proof of membership. The SNRS member registration rates will also be available for ENRS, MNRS and WIN members.

Please review the [submission guidelines page](#), which contains important information and items that you will need prior to starting the abstract submission process. Reviewing this information in advance will greatly facilitate the submission process.

We look forward to receiving your abstract and seeing you in Tampa, FL.

Sincerely,

Marygrace Hernandez Leveille, PhD, RN, ACNP-BC  
Vice-President, SNRS
